None.

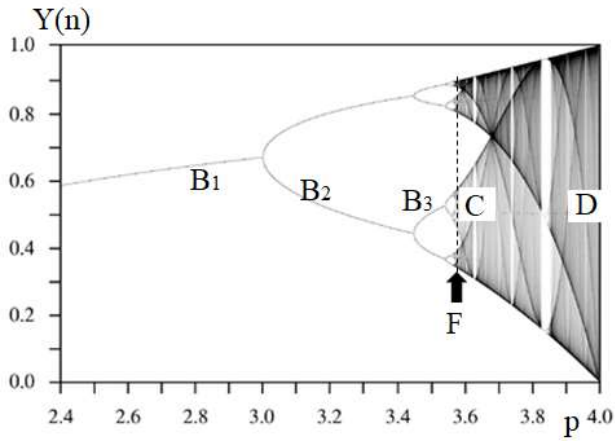

Figure 1: Logistic schema of equation (1)

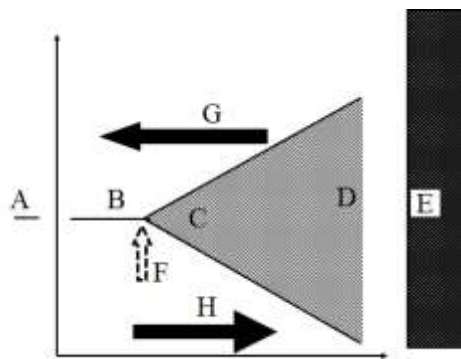

Figure 2: Schema of complete fixed, incomplete fixed, chaotic, and random states

A fixed state such as mountains and a chaotic state such as clouds coexist in reality. We must understand both and suppose the fixed state is covered by the chaotic state.

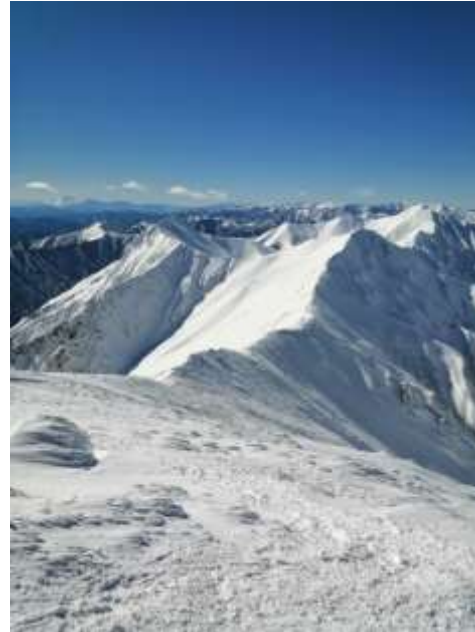

Figure 4.: Mt. Tanigawa with no clouds in winter. The mountains are clear because there are no clouds.

Figure 3: Mt. Tanigawa with clouds in winter.
